2022 February 18 (Fri)
09:00-16:00 CET | ZOOM

Registration available until Feb. 17 (Thu)

The European Missions are a **new way of collaborating** under the Horizon Europe research and innovation programme.

The Joint Programming Initiative on Climate is organizing a **European networking event** for those interested in Horizon Europe's 5 calls of the Climate Change Adaptation Mission.

This transnational networking event is supported by the French Ministry of Higher Education, Research and Innovation. We're gathering interested parties to:

- **Share your ideas using a straightforward template**
- **Find partners who can add value to your consortium**
- **Connect to jointly set up a proposal**

Agenda (CET 09:00-16:00)

- 09:00 Plenary session with JPI Climate Chair and representatives from DG RTD and DG Clima
- 10:00 5 Parallel sessions (one for each call topic) featuring pitches from participants on their targets and needs, followed by a sandpit discussion
- 12:00 Lunch break
- 13:00 Feedback from 5 sessions: envisioning paths to build innovative and strong consortia
- 15:00 Overall coherence of the mission: a cross-perspective on consortia addressing different topics
- 16:00 End of Event

Please do not forget to check your eligibility for funding under Horizon Europe. For more information on the different calls, please watch this summary of the EU Missions info days
